

VARIANT 700 Series

Efficient welding of tarpaulins with the new VARIANT 700 series

The welding machines excels in versatility and efficiency. The 706/708's dual-nozzle system allows simultaneous welding from both sides. Featuring smart, one-touch operation for easy lift and weld functions, it ensures safety and precision. The 700's modular design effortlessly switches from overlap to spriegel welding, with a speed of up to 20 m/min, making it ideal for truck tarpaulin and tent production.
